# Smooth and Contoured - provides patient's comfort

## ■ Chair Mount -EURUS TYPE-

Unique low patient entry seat position along with a 200 kg patient lifting capability is one of the most versatile chairs in the market place.

### Twin-axis headrest

The precise positioning of the headrest can be set in 7.5 degree increments accommodating a wide range of patient types. The height adjustment for taller patients can be easily positioned with very little effort from the operator.

### Rotating armrest

The armrests are designed with a length and shape that makes it easy for patients to hold and the side-rotating mechanism helps elderly patients mount and dismount the chair with ease.

### Chair stick switch

The dental chair can be entirely manipulated in a hands-free, hygienic and intuitive manner using only the operator's foot ( patent pending ).

## ■ Chair Mount -original-

### Adjustable chair positioning

A wider range of movements offers a practical working environment that meets all the operators' requirements.

### Axis backrest

Synchronized axis backrest ensures optimum patient comfort at all times. Ultra slim backrest for ease of access for both operator and assistant.

### Durable diecast base

The sleek styling of the durable aluminum diecast base offers the dentist improved access with maximum chair stability.

### Service centre

The built in service centre eliminates the use of external umbilical hoses.

# Intuitive Control - technology you can rely on

Electric Type Control Panel

| | | |
|---|---|---|
| **1** Power Indicator | **5** Micromotor Speed Setting Switch | **9** Decreasing Switch |
| **2** Safety Lock Indicator | **6** Micromotor Direction Control Switch | **10** Increasing Switch |
| **3** Coolant Water ON/OFF Switch | **7** Function Switch | **11** Chair Auto Mode Switches |
| **4** Light Pack Switch | **8** Store Switch | **12** Chair Manual Control Switches |

| |
|---|
| **13** Cupfiller Switch |
| **14** Bowl Flush Switch |
| **15** Dental Light Switch |
| **16** Function Indicator |

## Function Switch ( E Type )

**Timer**
Timer set for alarm.

**Group selection mode**
Preset position for chair and preset rotation speed for micromotor can be set for 4 individual dentist.

**Flushing system**
The E type is available with a short and long time flushing system.

**Control panel switching sound ON / OFF**
Sound can be deactivated.

**Fiber optic handpiece lighting mode (optional)**
Handpiece lighting mode can be chosen.

**Electronic sound for timer**
4 electronic timer sounds to choose from.

**Micromotor maximum speed setting (optional)**
The maximum rotation speed of the micromotor can be selected in 3 steps or 5 steps.

**Coolant water ON / OFF switch**
When using micromotor(s), either 2-mode or 4-mode of coolant water can be selected by mode select setup.

**Cupfiller and bowl flush**
Select cupfiller and bowl flush to operate together or independently.

## Digital Indicator ( E Type )

**Micromotor mode**
The micromotor rotation speed can be selected by sliding the foot controller pedal right or left. Rotation speed is displayed.

**Scaler mode**
Easy to confirm which mode of scaling has been selected (scaling, end, perio). Power output is displayed.

Air Type Control Panel

Membrane switches for chair controls and other necessary functions are clearly situated on the control panel of the operator's table.

| **2** Chair Manual Control Switches | **4** Cupfiller Switch |

# Unit

## Integrated cuspidor

The highly durable integrated cuspidor creates an attractive, aseptic environment for the patient and the smooth surface makes it easy to clean. Detachable glass bowl is durable, transparent and easy to clean.

## Operator's table

Incorporating holder type instrumentation with "first priority system"*, the operator's table is adjustable both vertically and horizontally to give optimal positioning.

*available for E-type only

## Assistant's console

The assistant's console includes 3-way syringe, vacuum and saliva ejector tubings, and easy clean membrane switches to control chair movements, cuspidor bowl flush and cupfiller.

## Foot control

A2(control of air instruments, water on/off and chip air) for A type. SE(control of air instruments, water on/off, chip air and control of electric motor/scaler) for E type. Foot controller with handle is available as an option.

# Light

## ■ EURUS LIGHT

The EURUS LIGHT provides sensor activation, stepless intensity between 5,000 lx and 34,000 lx, reproduces natural light with a high functional color rendering capacity.

## ■ 900 LED LIGHT

900 LED LIGHT (D200)

The 900 LED light provides sensor activation, stepless intensity between 5,500 lx and 39,000 lx with rectangular light pattern and is bright enough to operate in the latest treatment styles.

## ■ 300 LED LIGHT

The 300 LED light provides sensor activation, stepless intensity between 3,100 lx and 28,000 lx, three axis rotation and clear light pattern.
